

Amine

Professional Summary

A highly motivated and detail-oriented software engineer with over 5 years of experience in full-stack development. Proficient in Python, JavaScript, and SQL, with a strong focus on building scalable web applications. Experienced in working with frameworks like Flask, Django, and React, and databases like PostgreSQL and MongoDB. Adept at collaborating with cross-functional teams and managing project timelines. Passionate about learning new technologies and staying up-to-date with industry trends. Strong problem-solving skills and a commitment to delivering high-quality code.

Key Skills

- **Backend Development:** REST APIs, Flask, PostgreSQL – Designed and developed scalable backend systems for e-commerce and financial services.
- **Frontend Development:** JavaScript, React, OpenCV – Built responsive user interfaces and implemented computer vision algorithms for image processing.
- **Database Management:** PostgreSQL, MongoDB – Optimized database queries and implemented data replication strategies for high availability.
- **Project Management:** Agile – Led cross-functional teams through the product development lifecycle, including Sprint planning, daily stand-ups, and retrospectives.
